Students staying on-site for the entire period of the block receive breakfast, lunch, dinner and tea and coffee.

Students staying on site for the 11-night mandatory residential and in self-accommodation thereafter will receive breakfast, lunch, dinner and tea and coffee for 11 days plus lunch and tea and coffee for the remainder of the period (14 nights).

Note: Dinner on the day of check-in, 2 January 2023 is included. Afternoon tea and any other requirements on the check-in day are to be provided by SMTC.

For students staying off-site after the mandatory residential, breakfast and dinner can be included on request in advance. This is \$20 for dinner and \$11 for breakfast. Lunch and tea/coffee are a mandatory requirement of the venue for day students not staying onsite.

Note: Single and shared accommodation requests cannot be guaranteed. However, SMTC will do its best to accommodate student requests. Once registrations are finalised, we will be providing a survey regarding food allergies, preferences and intolerances to ensure everyone's needs are met.

Once accommodation availability and preferences have been finalised, students will be provided with an invoice payable within 14 days. We estimate this to be around October or November. A payment plan option can be requested.

We have done our best to keep these costs a low as possible, we appreciate these additional costs may be difficult for some people to manage. We encourage you to contact us if these costs are prohibitive to you undertaking the course.

\* January 2024 costs are anticipated to be similar but will be advised closer to the time.
